R	Ins	Imidor 350 SC	L8019	Imidacloprid	X			X			Eucalyptus transplants < 1 year old. White grub (Larvae of Scarabaeidae beetles)
R	Ins	Suppositree	L10090	Imidacloprid	E			X			Eucalyptus transplants < 1 year old. Foliar insects: Psyllids (Psyllida), Gall wasps (Ophelimus maskelli), Beetles (Hetrobostrychus brunneus); Soil insect: White grub (Scarabaeidae), Cutworm (Agrotis), Termites, (Macrotermes spp), Bark beetles (Hylastes angustatis).

NOTES:

1. ALWAYS, ALWAYS read the label before use. The following needs to be taken not of:
 - a. With holding periods
 - b. Recommended adjuvants
 - c. Re-establishment warnings
2. TIPWG does not condone the use of glyphosate for the preparation of tracer belts or any fire break activity.
3. Use of products in plantations is indicated with an X in the compartment column. Where E,P or W is indicated, this denotes Eucalyptus, Pine or Wattle, respectively.
4. Industrial use includes use in the nursery's walk-ways and under beds. These products can also be used for workshops, around buildings and along fences.
5. Nursery use indicates use in the holding nursery too.
6. Note that all information on this list is correct at the time of publishing and has been sourced from manufacturer's labels and MSDS.
7. Adjuvants: Please read the label for recommendations.
8. Derogations:

Alpha-cypermethrin, cypermethrin and deltamethrin's derogation have been extended until 31 December 2020.
9. FSC Rating: HR = Highly restricted; R = Restricted
10. For more details on ESRA mitigations * See the latest version of the TIPWG ESRA document
11. POE-T free only applicable to glyphosate products
